

Position: Quality Nurse

Job Location: Saudi Arabia

Qualification: BSc Nursing with recognized course in Quality Management

Experience: 3 years' experience in Quality Management

Job Responsibility:

- Acting as the primary support contact for quality dashboard and report development.
- Identifying issues that arise in their application area as well as issues that impact other application teams, and working to resolve them.
- Guiding workflow design, building and testing the system, and analyzing other technical issues.
- Identifying and implementing requested changes to the system to support EH quality reporting requirements.
- Developing an understanding of operational needs to set the direction for the organization's process and quality improvement.
- Participating in training and working with Quality Department leadership.
- Troubleshooting problems and questions with leaders, staff and physicians.
- Reviewing the status of projects and issues on an ongoing basis with leadership.
- Holding weekly communications with team members to discuss the status of deliverables, shared issues, end-user concerns, and upcoming milestones.
- Effective use of QI and PI project management tools to manage analytics projects.
